Board Meeting Minutes:

Herbert Burns indicated that he has screens on file for the last 3 or 4 years to print club shirts, hats etc. and this information is not getting to the club members. He wanted the club to create a web site for him. We offered to do a link from the club site to his. He cannot keep the screen information forever. Herb was asked for a price list.

He cannot project prices unless he knows the quantity.

Bob Freshwater wants requested a work party for the following weekend.

The field is in good shape because of the work done by Brady and his crew. We do need to trim or cut down the tree next to the weather station building. We also need to remove or rebuild the porch on the weather station. We can use next weekend to survey to determine what work is needed. We will also be working this week to install the new (RICO) bridge next week.

Currently there are 2 people who have made reservations for the Christmas party at Black Angus.

A suggestion was made to put information in the newsletter about information for new hobby items on sale.

The Waldo Pepper fly in will be in two weeks.

The current club secretary has agreed to stay on for another year. However, the club president will be leaving his post at the end of the year replacement will be needed.

The October meeting will be at the field, weather permitting. If the weather is not good we will meet at the clubhouse at 730 PM.

There have only been 1 or 2 responses for those people interested in a helicopter pad at the field. The matter will be tabled till next year.
