It was emphasized by Art Vargas for members to pick-up YOUR trash, also there were cigarette butts in the "No smoking in unauthorized areas". So a word to fellow members, let's keep our flying fields litter free & SAFE .

Several suggestions to prevent entrance thru the auxiliary gates were presented: 2 huge boulders and/or poles to be positioned adjacent to gate area. It appears this issue will be resolved soon.

From the Secretary:

As some of you are aware, I've inherited the position of Club Editor from Jeff Whitney. Although my scribe type talents may appear to be some what suspect compared to Jeff's, I will make every effort to continue to make it enjoyable reading for you fellow members. Also, I'm an individual that strives to keep things on the lighter side. So on occasion you'll read a few "barbs", for enjoyable reading

Burt takes a lot of photos and he is good at it. But he does not have to be the only one. If you see something interesting at the field, snap a cell phone picture and send it to me, along with a description!
