Safety Committee Report:

Burt noted that it is paramount to check your control surfaces before attempting to fly. A pilot recently crashed his plane on take-off due to reversed ailerons. He also restated the need for everyone to wear sunscreen and to be sure to only plug in at the Pit.

If your plane ends up in one of the ponds, never try to retrieve it by yourself. It is very dangerous as the ponds are full of decomposing debris and sticky mud. If you get in trouble, no one would hear you calling for help.

Spring is the season for ticks and mosquitoes. They are a hazards until October.

Be sure to wear high boots if you have to retrieve your plane in the marshes.

We discussed buying some more waders to keep at the field. Use "OFF" or some product like it.

New Business:

None

Announcements:

Marc Reynolds donated several fine planes to the members from his father's, Carl, collection. We thank him for that!

The combination on the gate locks are changed as of January. Be sure to check your email for the new combination.

Jeff reminded the members to be sure to update your contact information for the newsletter if it has changed.

Jeff also noted that Open Cockpit Day at the Oakland Aviation Museum is scheduled for March 3rd. **VOLUNTEERS ARE NEEDED!** Please arrive by 9:30 to set up your tables and display planes if you choose to attend. Lunch is provided.

Jim Utley noted that the Scouts will be camping at the field the 3rd weekend in August. Volunteers are invited to buddy-box with novice pilots.

Look out for announcements for our War Bird and Waldo Pepper events.
